

VIP France-NGC and VIP Czech Republic-NGC (Stand 04.09.2018)

VIP France-NGC	France	NGC
“VIP-TSO”	GRTgaz	GRTgaz Deutschland
Concerned TSOs	GRTgaz	GRTgaz Deutschland, OGE
Relevant IPs	Obergailbach	Medelsheim GRTgaz Deutschland, Medelsheim OGE

VIP Czech Republic- NCG	Czech Republic	NGC
“VIP-TSO”	NET4GAS	OGE
Concerned TSOs	NET4GAS	GRTgaz Deutschland, OGE
Relevant IPs	Waidhaus	Waidhaus GRTgaz Deutsch- land, Waidhaus OGE

Due to the uncertainties regarding the VIP-establishment as well as the risks involved, OGE and GRTgaz Deutschland were for a long time unable to initiate the adaptations to the core processes and IT-systems required for VIP-implementation. The implementation of VIPs has implications for the whole complex IT-landscape of the TSOs. In particular time-critical, highly-available systems and processes like nomination and grid steering systems are affected. Due to the criticality of these systems and processes a comprehensive quality assurance is imperative.

Therefore, the VIP France-NGC and the VIP Czech Republic-NGC will be established on March 1st 2019. This implementation date has been coordinated with the adjacent TSOs and the Federal Network Agency (Bundesnetzagentur) has been informed.

Further details regarding the implementation of these VIPs (e.g. the EIC-Codes) will be communicated in the coming months.
